

Program

NOVEMBER 6th

- 8:00 a 9:00 Accreditation and breakfast
-
- 9:00 a 9:30 Opening of the conference
-
- 9:30 a 10:15 Revolution 4.0 in the agro: trends and challenges.
-
- 10:15 a 11:00 Digital Agronomy: precise information for decision making.
-
- 11:00 a 11:30 Break.
-
- 11:30 a 12:30 Big Data and food production: the challenge of the avalanche of data for decision making.
-
- 13:00 a 14:30 Networking lunch.
-
- 14:30 a 15:30 Beyond cryptocurrencies: the future of Blockchain in Agro 4.0.
-
- 15:30 a 16:15 Agrosensors and IoT: maximizing the use of agricultural information in real time.
-
- 16:15 a 16:45 Break.
-
- 16:45 a 17:30 Adding neuronal thinking to the agro company: AgroBot and Artificial Intelligence.
-
- 17.30 a 18.15 Smart Farming - Smart Agriculture and production efficiency.

NOVEMBER 7th

- 9:00 a 9:45 Leveraging technology to promote investment and reduce risk.
-
- 9:45 a 10:30 Controlled environments. Future food-production systems: vertical farming and controlled environment agriculture.
-
- 10:30 a 11:30 Biotechnology potential: from the seed to the source of health in the food.
-
- 11:30 a 12:00 Break.
-
- 12:00 a 13:00 Microbiomes - new ways of understanding soil and plant health.
-
- 13:00 a 14:30 Networking lunch.
-
- 14:30 a 15:15 Plant- meat: new concepts of production and consumption.
-
- 15:15 a 16:30 Cellular Agriculture: dialoguing about synthetic meat and its future.
-
- 16:30 a 17:00 Break.
-
- 17:00 a 18:00 National panel. Conclusions. Reflecting on Agro 4.0 in Argentina: impact and challenges.
-
- 18:00 a 18:30 Closing of the event

Silicon Valley Forum Immersion Sessions in AgTech November 6 and 7 - Rosario
